

A close-up, high-angle shot of a dark-stained wooden floor with a prominent grain pattern. In the upper right corner, a portion of a light-colored wicker basket is visible, containing a dark, textured object. Below the basket, a glass jar with a metal lid and a black circular logo featuring a white letter 'B' is partially shown. The lighting is soft and directional, creating subtle shadows and highlights on the wood's surface.

Madera con raíces cerámicas

Colonial captura la esencia orgánica y natural de los nudos, vetas y matices de color de la madera sin tratar.

Presentada en variantes roble, almendro y nogal, esta colección reproduce en formato cerámico los tonos y las texturas de un suelo de tarima de manera tan fiel que supone un auténtico desafío para nuestros sentidos. Este porcelánico integra la calidez propia de la madera en entornos en los que tradicionalmente estaría vetada y con unas mínimas necesidades de mantenimiento.

La colección Colonial está disponible en formato 19,5x120 y ofrece una propuesta antideslizante idónea para espacios de alto tránsito.

Suite Colonial consigue un contrapunto decorativo con un revestimiento en madera, emulando el uso de pequeños listones horizontales, en formato 40x120 rectificado y en las tres gamas de acabado de la colección.

Wood with ceramic roots

Colonial captures the organic and natural essence of the knots, veins and shaded colours of untreated wood.

Presented in oak, almond and walnut variants, this collection reproduces the tones and textures of a wood floor so faithfully that it is a real challenge to our senses. This porcelain tile integrates the warmth of wood in environments where it would traditionally be vetoed and requires minimal maintenance.

The Colonial collection is available in a 19.5x120 format and offers a non-slip proposition suitable ideal for high-transit spaces.

Suite Colonial achieves a decorative counterpoint with a wooden cladding, emulating the use of small horizontal slats, in a rectified 40x120 format in the three ranges of finish of the collection.
